Enjoy the Business Plan Template Example Below!

BUSINESS PLAN TEMPLATE EXAMPLE

1. My Business Model: Affiliate Marketing

2. My Target Market: Keywords and Interests

'Wealth Creation'; 'Make Money Online'; 'Start a Business Online'

3. My Ideal/Target Customer: 35-55, teacher, investor (wants to earn passive income), wants to help others.

4. The Problems I Will Solve:

My ideal customer has No mentor/coach/tutor; No program that is step by step; and they lack focus.

I will Lead him/her to a business coach, a proven program, and the focus they desire!

Prospects have been burned before and are weary of 'opportunities' and education programs because many are poor quality or overpriced.

I will provide logical recommendations for 'make money online', 'affiliate marketing' and 'starting a business online'...

5. How Will I Execute the Business Plan?

I will use SEO, Ads, Youtube, Instagram, Tik Tok, and Email etc and other traffic strategies that work!

I will recommend to them how they can change their financial situation by showing them ways to bring in active and passive income using affiliate marketing.

[I will demonstrate how I do it](#), and as I achieve little successes, I will demonstrate how I achieved these milestones along the way to earning \$100,000.

I will use video to demonstrate my ideas and milestones using screen capture and instructional videos!

6. My Revenue Streams (Multiple Streams of Income):

There are several income streams and to begin with, I will find the best affiliate marketing products and services and systems to promote!

These systems are the best marketing systems with the best quality products and services found on the internet!

My goal is to launch advertising campaigns and scale up over time.

7. My Specific Money Making Activities:

- I will build a Wordpress website;
- I am going to use SEO to grow free organic traffic.
- I will place some ads on Google; and Youtube!
- I am going to create a few Youtube Channels and I will add several Youtube videos per week into the niches of 'Wealth Creation'; 'Make Money Online'; and 'Start a Business Online'.
- When I have time I will do Instagram, Tik Tok videos, and Email Broadcasts and other traffic strategies that work for me!

8 My Monthly Expenses:

I will spend \$600/month for ads, and scale up as I earn.

I will spend \$100/month on software. (website hosting, domains, email autoresponders)

I will spend \$5000 on coaching. Knowing how to do certain things in the certain way to make 1 million dollars is essential for my personal development!

As I grow my business I will invest more money into learning courses/blueprints/coaching to further improve my methods.

9. My Marketing Team:

I am a solopreneur, but I will hire a marketing assistant when I start earning more than \$10,000 per month.

10. My Business Milestones:

My first goal is to get a result within 1 week - to earn my first commission.

Within 30 days I want to hit my first \$1,000 in earnings.

In 3 months I will earn my first \$10,000.

In 6 months I will earn \$50,000.

In 12 months I will earn \$100,000.

Wish me luck,

Tutorman
